CPR Training for PSR Ministry Team

Recently, Mrs. Kelly, PSR Coordinator, scheduled an evening for the PSR Ministry Team to attend an American Heart Association CPR training in the MPH room. The instructor-led Heart Saver CPR training included verbal instruction, videos, and hand-on practice to become familiar with adult, child, and infant CPR, as well as instruction and practice on how to use an AED (Automated External Defibrillator). These life-saving techniques are important to be aware of in case of emergency. Although we hope a situation will never arise that calls for the need to use these skills, we will continue to provide annual training to anyone on the PSR team who can attend. The training included a workbook and certification. This course was led by one of our parishioners, Karen Wolk. Karen previously served on the PSR Ministry Team for many years. We were very grateful for her knowledge and time.

The PSR team also practices safety drills with students annually, and catechists are encouraged to attend additional Archdiocesan-provided safety courses. Many safety protocols for the building and security systems are in place and practiced throughout the year. The safety and care of our children, families, and ministry team is always our priority.
